Submit video files on a flash drive.

Place your initials on the front or back of the flash drive.

Clear or reformat flash drive before uploading your video (and prior to submitting).

When submitting, the video file will be checked for formatting and compatibility before the submission is complete.

Format preferences:

File Format:

Quicktime (.mov) or AVI (.avi)

Compression: H.264

Frame rate: 24, 30 or 60

Data Rate: 5000 kbps - 14,000 kbps

Resolution: 640 x 480 for Standard Definition (4:3)

1920 x 1080, square pixels for high definition (wide screen, 16:9)

De-interlacing: If your original is interlaced, then de-interlace. Progressive scanned files work best when displayed on a computer.

Digital/Interactive Media

Digital/interactive media includes mobile or desktop apps, interface screens, digitally-controlled devices responding to touch or motion, and other artwork employing computer technology.

Please call or e-mail with questions: 438-2615 or jmbingh1@ilstu.edu.

Zach is also a point of contact for digital.
